PRACTICAL HOME
COOKS throughout
the North of England*

SO WIDELY has BE-RO Self Raising Flour become known, and so fully have its many good qualities been appreciated, that it may be said to have grown into the home life of the North, as one of the most useful household commodities.

. . . . So much so that a special Recipe Book long since became a part of BE-RO Service, and this is the sixth edition, and the fifth million. It is more helpful and more informative than any of the five previous editions, while the inclusion of photographic illustrations will greatly enhance its value to the Housewife.

BE-RO, used with these Recipes, makes most wholesome and tempting table Dainties, such as are needed daily in the average home. In a simple and economical way, it helps to create a very high and regular standard of home baking.

Good Home Baking is something to be proud of

THE woman who can cook well and bake well has every reason and every right to be proud of her cooking.

In ninety-nine cases out of a hundred she has a happy home, because good cooking means good food, and good food means good health.

There's no more pleasing sight than that of a happy family around a well-stocked tea-table, all enjoying their food; and the mother who is responsible for the good cooking, and who has prepared it with her own hands, has every right to survey the results of her culinary skill with pride and satisfaction.

It's more economical, too!

Home Baking is an economy. The tasty Scones and Cakes that you make at home, the appetising Pies and Tarts, all cost much less than those you buy ready-made. You know what's in them too; you know they are good and pure; that they have been made under clean, hygienic conditions and your doctor will tell you that good, wholesome food is worth more than all the medicine in the world, especially for hungry, growing children.

That's why it pays to bake at home!

Self-raising FLOUR

Why BE-RO Flour is so popular

BE-RO is popular because it has been the means of encouraging and improving Home Baking in many thousands of Northern Homes.

The North Country has always been noted for its Home Baking, and the majority of its expert Home Cooks are very enthusiastic users of BE-RO, because they find that no other Flour gives quite such good results.

With recipes simple to follow, and economical to use, they obtain a higher and more regular standard in the baking of wholesome and tempting Dainties needed daily in the average home.

BE-RO makes deliciously light Scones, Cakes, Pastry and Puddings, with a pure, wholesome flavour.

BE-RO Self-Raising Flour is guaranteed pure, and the finest quality obtainable. It is made from blends of the world's best growths of wheat flour, thoroughly mixed in correct proportions with the finest raising agents known to science. It therefore costs more to produce than many other Self-Raising Flours.

BE-RO is the ideal Self-Raising Flour for the slow amateur; and even for the expert, it is better and much safer to use, because there is no risk of cakes being spoiled through delay or interruption between mixing and putting into the oven, as the raising agents in BE-RO do not act until heat is applied. Many other methods depend for results upon skill in getting the mixture quickly into the oven, because with them the raising action begins immediately moisture is added.

Cakes made with BE-RO keep fresh and moist much longer than most cakes.

Teach your Daughters to bake at Home

THE mother who allows her little daughters to "help her" in the kitchen on baking days may find them somewhat of a nuisance at first, but if she will only encourage them by kindly and patient example to learn the rudiments of cooking, they will become a great comfort and help to her when they grow older.

Not only that, they will learn one of the most important sections of home-craft, in preparation for the great day when they themselves will have homes of their own.

Teach your girls how to bake and cook. Let them take a pride in making Scones and Cakes for daddy's tea. Every minute you devote to this most important task will be repaid to you a hundredfold, both in the actual help you will receive in later years, and in the pleasure and satisfaction you will derive from knowing that you have helped them to become useful and economical housewives themselves.

**Remember, BE-RO Recipes are
simple and economical. Also
BE-RO is absolutely Pure, and

PLAYING AT HOUSES

These two happy girlies are pretending they are REAL cooks, and are making Scones with BE-RO. As soon as the Scones are ready, mother will put them in the oven with hers, for she encourages her daughters to learn all they can about cookery.

The Be-Ro Demonstration Kitchen and Tea Lounge at the North East Coast Exhibition, Newcastle-on-Tyne, May-October, 1929

THE many thousands of visitors who witnessed the BE-RO Cookery demonstrations at this Stand, and who enjoyed the BE-RO Cakes in the adjacent Tea Lounge, will remember the high standard of quality maintained by the little BE-RO girls.

These girls ranged from 14 years of age upwards, and as none of them had received professional tuition, the excellent results obtained by them, with never a failure, were proof of the ease with which young girls can learn Home Baking with BE-RO.

The Recipes in this Book are in all cases identical with those used in the BE-RO Demonstration Kitchen at the Exhibition.

A few useful Hints about Gas Ovens

WHEN about to use a GAS OVEN, first light the Match or Taper, and then turn on the Gas and ignite it. The flame should be blue, and about one and a quarter inches long on both sides.

The oven door should be left slightly open for the first three minutes, to avoid steaming, and then kept shut for 15 minutes.

This will thoroughly heat the Oven, and it is then ready for baking. **WHEN PUTTING IN THE CAKES TURN THE GAS DOWN**, varying according to the kind of cakes.

SCONES, AND "RUFF PUFF" PASTRY, NEED A HOT OVEN, and, in a Gas Oven, are usually placed near the top, immediately under the browning shelf, as this part is hottest. A flame of from half to three quarters of an inch should be long enough.

SMALL CAKES, BUNS, and SHORT PASTRY require a fairly hot oven, but not quite so hot as for Scones and "Ruff Puff" Pastry.

MEDIUM SIZED CAKES (such as Sandwich Cake), require a **MODERATE OVEN**, and should be placed on the middle grid shelf, with a flame only one-third of an inch long.

LARGER CAKES should also be placed on the middle grid shelf, and given a moderate heat for about half the time, with a slow heat to finish (the gas being turned as low as possible).

When baking large Cakes, it is best not to open the oven door for about half an hour after putting the Cakes in.

ALWAYS OPEN AND CLOSE THE OVEN DOOR GENTLY. Slamming the door may make a Cake fall in the centre.

Baking Sheets and Cake Tins should be kept about one and a half inches away from the sides of the Oven, to allow hot air to circulate freely.

Never put water in the drip tin at the bottom of a gas stove. It causes steaming, and will spoil the cooking.

The solid shelf in a gas oven is not for placing things on. It is only supplied for sliding above the articles being cooked, in order to brown the tops, by throwing the heat down.

More useful Hints

WHEN USING AN ORDINARY COAL OVEN, make up the fire beforehand with the damper out. When at the proper heat, partly close the damper and build up the fire with coal. This will give a steady heat, which can be increased if need be, by pulling the damper out.

Faults in cakes are usually caused by baking too quickly or too slowly. IF YOUR OVEN IS AT THE CORRECT HEAT, the times given in this recipe book will give excellent results.

With a little practice, correct heats can be judged by putting one's hand in the oven

REMEMBER, BE-RO DOES NOT ACT UNTIL HEAT IS APPLIED. THERE IS THEREFORE NO NEED TO WORRY ABOUT GETTING BE-RO CAKES INTO THE OVEN QUICKLY AFTER THEY ARE MIXED.

Hints on Pastry Making

COOL hands, a cool slab, and water as cold as possible, help you to produce the best results. Use the finger-tips, as they are the coolest part of the hands. Always mix with a knife. Add the water gradually, using as little as possible, as the paste should be very stiff. After adding water, avoid adding more flour, as this spoils Pastry.

Pastry requires a **HOT OVEN**. If using a Gas Oven, bake the Pastry on the top shelf, beneath the browning shelf, as this part is hottest.

See Oven Hints pages 6 and 7.

Always pierce a small hole in the top of Pies to let the steam out. This makes them more wholesome.

BE-RO 'Ruff Puff' Pastry

8-ozs. BE-RO FLOUR. 5-ozs. LARD.
Half Teaspoonful SALT. COLD WATER.

Mix Flour and Salt in a basin. Cut Lard into small pieces and mix with the Flour, using a knife. (**Do not rub Lard in**). Mix into a stiff paste with **COLD Water**; turn on to a floured board and roll out into a narrow strip; fold into three, turn one of the open ends towards you and roll out again. Do this three times. Roll the last time into the shape desired. **ALWAYS TAKE CARE TO ROLL FROM YOU**, and do not break the little air bubbles that will rise. **BAKE IN A HOT OVEN.**

BE-RO excels for the making of Pastry. BE-RO 'Ruff Puff' Pastry has a delicate lightness that makes it easily digestible

Always use BE-RO for Pastry

BE-RO Beef Steak Pie

1½-lb. STEAK and
KIDNEY.

One Tablespoonful FLOUR.
SALT and PEPPER.

Mix, on a plate, a tablespoonful Flour, a teaspoonful of Salt, and a quarter teaspoonful of pepper. Cut the Meat into small pieces and roll it in the Flour, Salt and Pepper mixture. Place it in a stew-pan, cover with water, and simmer about an hour, stirring occasionally.

MAKE BE-RO "RUFF PUFF" PASTE (as recipe on page 13). Turn the Meat into a pie-dish, but do not fill more than two-thirds with Gravy (or the crust will be wet and sodden). If the dish is not well filled with Meat, put a pie funnel in the centre.

Roll out the Paste, the shape of (but a little larger than) the top of the pie-dish, and cut a strip off the edge. Wet the edge of the dish and place the strip all round, moisten it, and cover the pie with the remainder of the Paste, pressing the edges together. Trim the edge, and decorate the top with cuttings of paste. MAKE A HOLE IN THE CENTRE, and brush over the surface with beaten Egg (or Milk). BAKE IN A HOT OVEN about half-an-hour. If necessary, add a little boiling water to the gravy when serving.

BE-RO Fruit Pie

About 1½-lb. FRUIT.

SUGAR to sweeten.

Prepare the Fruit, and let it simmer, with a little water and Sugar to sweeten, in a saucepan for 15 minutes.

MAKE BE-RO "RUFF PUFF" PASTE (as recipe on page 13). Place a pie funnel in a pie-dish, and fill with the Fruit. Roll out the paste, the shape of (but a little larger than) the top of the pie dish, and cut a strip off the edge. Wet the edge of the dish, and place the strip all round, moisten it, and cover the pie with the remainder of the Paste, pressing the edges together. Trim the edge, and decorate the top with cuttings of Paste. Make a hole in the centre, and brush over with beaten Egg (or Milk). BAKE IN A HOT OVEN about half-an-hour. When done, dredge over top with Caster Sugar.

Use $\frac{1}{2}$ -lb. SAUSAGE MEAT (or take $\frac{1}{2}$ -lb. Sausages out of their skins) and divide into 12 portions. Roll the meat slightly (in hands well-floured), and lay it on the pieces of Paste. Fold the paste over with a slight overlap. Place the rolls on a baking sheet (with the overlap joint underneath). Brush over with beaten Egg, and make three slanting cuts across the tops about an inch long. BAKE IN A HOT OVEN about 20 minutes (until nicely browned).

Favourites for Picnics

Grease an old plate and cover it with one portion of the Paste. Then cover the centre with the Meat, and wet the edge all round. Cover with the other round of Paste, press the edges together and trim. Brush over with beaten Egg (or Milk). PRICK THE TOP, and BAKE IN A HOT OVEN about half-an-hour.

BE-RO Fruit Pasty

Prepare $\frac{1}{2}$ -lb FRUIT, and MIX WITH SUGAR to sweeten. MAKE HALF THE QUANTITY OF BE-RO "RUFF PUFF" PASTE (as recipe on page 13). Proceed in the same way as given above for Beef Pasty, using the Fruit instead of the Meat.

She never forgets the BE-RO

Baking days would be blank days in little Margery's life without BE-RO. She looks forward to the pleasant hours spent with mother making dainty BE-RO Cookies. That's why Margery always makes sure of BE-RO when she takes the grocery order along.

BAKE IN A HOT OVEN about 20 minutes.

Custards are always welcome

BE-RO Custard Tart

TO MAKE ONE LARGE TART, use HALF the recipe quantity of BE-RO SHORT PASTRY (see page 17). Roll it out, and line a 7-inch Sandwich Cake tin. Prick with a fork lightly (so as not to penetrate right through the pastry). Then line again on top of the pastry with greased paper (to prevent the sides falling in). Partly bake in a MODERATE OVEN about 15 minutes. Whilst baking, prepare the Custard filling.

Custard Filling

Two EGGS.

Half-Pint of MILK.

Two Tablespoonfuls
SUGAR.

Whisk the Eggs. Bring the Milk and Sugar to the boil in a saucepan, and pour on to the Egg and stir.

Take the paper gently off the partly Baked Pastry, and pour in the Custard Filling. Grate a little Nutmeg on top, and return it to a MODERATELY HOT OVEN for another 15 minutes to set.

BE-RO Custard Tartlets

TO MAKE 12 TARTLETS, use HALF the recipe quantity of BE-RO SHORT PASTRY (see page 17). Roll it out, and line the 12 tartlet tins. Half-fill each with the Custard Filling (given above). Grate a little Nutmeg on tops, and BAKE IN A MODERATELY HOT OVEN 15 to 20 minutes.

"Short and Sweet"

BE-RO Rich Jam Cake

8-ozs. BE-RO FLOUR. 2-ozs. MARGARINE.
Half Teaspoonful SALT. One EGG.
2-ozs. SUGAR. JAM or MARMALADE.
2-ozs. LARD.

Mix Flour, Salt and Sugar, then rub in the Lard and Margarine lightly and mix into a STIFF Paste with the beaten Egg; add a little Milk if necessary. Divide into two parts and roll out thinly, both the same size. Cover one with Jam, place the other piece on top, and nip together. Place on a greased baking sheet, and BAKE in a MODERATELY HOT OVEN about 15 to 20 minutes. When cool, cut into dainty squares or triangles.

BE-RO Shortcakes

1-lb. BE-RO FLOUR. 8-ozs. BUTTER.
6-ozs. Fine SUGAR. One EGG.

Warm the Butter in a bowl, and mix in the beaten Egg. Then mix in the Flour and Sugar and KNEAD WELL. Divide into two equal portions.

Shape and flatten one portion into a round, about $7\frac{1}{2}$ inches diameter by 1 inch thick. Place it on a baking sheet, and form a groove on the top (about one inch from the edge all round), by pressing the rim of a pint basin (turned upside down) on to it. Decorate the edge by cutting with a spoon (as in illustration). Prick the top well, and BAKE IN A fairly SLOW OVEN about 45 minutes.

To make 18 BISCUITS, roll out the other portion of Paste to half an inch thickness, and cut in rounds with a scone cutter. Prick the tops well, and BAKE IN a fairly SLOW OVEN about 20 minutes.

Hints for making Cakes

USE a wooden spoon and a warm bowl to cream the Margarine and Sugar. Care must be taken, however, that the bowl is not hot, for on no account must the Margarine be allowed to "oil."

Always break Eggs separately into a cup. If one of them happens to be bad, this will prevent it spoiling the others.

Dip your spoon in Milk before spooning the batter or mixture for small Cakes. This will prevent the mixture sticking to the spoon.

In Fruit Cakes, never make the mixture too thin, as this will cause the fruit to sink. Fruit, if washed, should be well dried before the Cake is mixed. Damp fruit causes heaviness.

To test if a large Cake is sufficiently cooked, pierce the centre of the cake with a skewer (or thin steel knitting needle). If the skewer comes out clean, the cake is ready; if it comes out pasty, the cake is underdone.

Always leave Cakes a short while in the tin before turning them out, just long enough to "set" but not to cool. Then take them out and put to cool on a wire cooling tray.

Cakes keep best in an air-tight tin, in a cool place.

Sandwich Cakes

In order to get the smooth, nicely-rounded top, and good texture that make a successful Sandwich Cake, about 30 minutes should be allowed for Baking with a Moderate Oven. If baked too quickly, the top will break, and if too slowly, the cake will be dry.

1 Teaspoonful GROUND TREACLE.
 GINGER.
1 Teaspoonful MIXED 4-ozs. MARGARINE.
 SPICE. One Teacupful MILK.
6-ozs. SUGAR. One EGG.

First mix Flour and Spices. Beat the Sugar and Margarine to a cream, and stir in the treacle; then add the dry ingredients, and the beaten Egg-and-Milk (alternately, a little at a time), and MIX THOROUGHLY. (To add a little chopped Lemon Peel, Preserved Ginger, or a few Raisins, is an improvement). Pour into a shallow, greased dripping tin and bake in a MODERATE OVEN, about three-quarters of an hour. Put one-third of a teaspoonful of Jam in each, then one teaspoonful of the Almond Mixture. Make thin strips of Paste from any cuttings, and lay across the tops at right angles. BAKE IN A HOT OVEN about 20 minutes.

How to Buy BE-RO Flour

BE-RO Self-Raising Flour is packed in strong paper Bags, by means of automatic electric weighing and filling machines. In the mixing, weighing and filling it is untouched by hand, and comes to you pure and fresh, and accurate in weight.

There are four sizes, one-pound, two-pound, three-pound and seven-pound. Beginners generally start by using the one-pound size, and wisely so; but when they find out the merits of BE-RO and what pleasing results they get from its use, they find the three-pound and seven-pound bags more economical.

If you have not yet used BE-RO, start using it to-day. If you are already a regular user, may we ask the favour of a recommendation to your friends?

BE-RO is on sale in practically every Grocer's shop throughout the North of England, and in the Border areas of Scotland.
